

10 Week SINGING COURSE FOR ACTORS

As a Musical Theatre and Actor active in the industry, I have become acutely aware of how many actors are required to sing in auditions. However, these actors feel they lack the adequate skills and techniques needed to nail these auditions because they are trained in Voice and not in Singing.

This 10 Week Singing Course for Actors has been specifically designed to bridge this gap and enhance the confidence and skills an actor needs for any singing audition.

The 10 Week Singing Course for Actors has been developed to gain strength, technique and confidence in accessing your singing skills. The course takes a holistic approach where you will learn about the physical, mental and dramatic aspects of your voice and the Voice, Body, Mind connection. By the end of the 10 weeks you will have gained confident singing techniques, daily practice exercises as well as two complete audition pieces for your repertoire.

The course is one on one tutoring scheduled fortnightly at a time convenient for you. With a special introductory offer of the first two lessons at a discounted rate for anyone who provides the special code word 'SING'.

Angela is the perfect teacher - a fabulous mix of fun and business. I look forward to my lessons with her every fortnight and my voice has improved SO quickly in such a short period of time!! She has an incredible ear for what you need to work on and always makes you feel comfortable and supported in your work. I've recommended her to all my friends. Go see her - I guarantee you won't regret it.

Sophie Power current student
